Profile

UI/UX Designer with 3+ years of experience designing digital products across healthcare, AI, and consumer applications. Specialized in creating user centered interfaces that balance usability, clarity, and business objectives. Experienced in leading full product design cycles from user research and wireframing to high fidelity prototyping and developer handoff. Works closely with developers and product teams to deliver designs that ship accurately, with products reaching millions of users worldwide.

Experience

UI/UX Designer · Terafort Limited

March 2023 - Present · Lahore, Pakistan

- Designed end to end UI/UX for 15+ digital products across healthcare, AI, media, and utility categories.
- Led full product design for eShaafi, a healthcare platform covering the website, patient app, booking flow, and admin dashboard. Designed BHU, a government health unit management system built for complex workflows and multiple user roles.
- Designed Aspire, an AI powered web and mobile app, ZM Player covering video, audio, and downloader, Snaptune a photo editor, goQR Code Scanner, Tattoo Me, and a Wallpaper app among others.
- Worked in Figma across all projects producing wireframes, user flows, prototypes, and high fidelity designs with direct developer handoff.

UI/UX Designer · Ziibay Soft

Nov 2022 - Feb 2023 · Layyah, Pakistan

- Designed and iterated on user interfaces based on user feedback and usability testing. Developed wireframes, prototypes, and high fidelity mockups in Figma and Adobe XD. Worked directly with developers to ensure accurate design implementation and participated in design reviews to improve overall product quality.
